

Drill at home for this year's 17 Jan.

Use the Yellow Cloth Strategy

In Minoh City, we are implementing the Yellow Cloth Strategy in order to quickly confirm people's safety. After a large earthquake, if everyone in your household is safe place a yellow cloth (a bright yellow cloth that can be easily seen) near your entrance. In a disaster it's a sign to the neighborhood that you're OK.

If you carry out the Yellow Cloth Strategy...

The process speeds up! You don't have to ring each doorbell and can tell the household is fine from just a glance!

A quick survey of the situation saves more lives!

A yellow cloth! Everything here is OK! Right, on to the next!

Listen to Tackey 816 (FM81.6MHz) with your family!

In the case of a disaster emergency information from the City will be relayed and repeated on Tackey 816 (FM81.6MHz). Please buy a portable radio and listen to Tackey 816 in the case of a disaster. You can also listen on some smartphones.

A special radio show will be broadcast from 10am! Listen to Tackey 816 on the day of the drill!

On the day of the drill from 10am - 12pm Tackey 816 will broadcast a special show called "Disaster Prevention with Tackey!". The show will broadcast interviews with people from disaster management committees and make disaster prevention fun with quizzes! Please listen to Tackey 816 with your family!

Check together with your family that your household is prepared

Enough water and food for at least 3 days

Water

9 liters x No. of people in household

Each person needs 3 liters of drinking water per day (4 person household = 9 liters x 4 people)

Food Supply

It's OK to use what you eat everyday

Please store food that you can eat without cooking.

- Retort pouches (okayu, zosui, stew etc.)
- Canned, bottled food

Always keep your fridge and pantry full!

Buy lots of groceries, eat the oldest produce first, and buy more as soon as you run out. Always keep a "new stockpile" in your house.

Preparing an emergency bag

- Radio
- Flashlight
- Wet tissues
- Whistle (to call for help)
- Batteries
- Emergency toilet
- Battery operated power bank

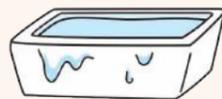

A backpack is best because it leaves your hands free!

Things that you might need: A little bit of water and some snacks, milk powder and diapers, your regular medicine, contact lenses (or a spare pair of glasses), menstrual products.

Keeping water in your bath

When a disaster strikes, you can use bath water for your everyday water needs such as flushing the toilet. Always keep the bath full of water.

Refuelling your car

In the case of an emergency you can use your car to keep warm and charge your cellphone. Don't refuel when you go out, get into the habit of refuelling when you return home.

Move or prevent furniture from falling

In the Great Hanshin-Awaji Earthquake over 6,400 people died of which 88% were due to collapsed houses or fallen furniture etc. A massive earthquake could happen tomorrow. Check the placement of your furniture and earthquake proof it.

Confirm a meeting area with your family

Please talk with your family and decide on a place to meet if you're apart. We recommend your home, an evacuation center or a relative's house close by.

★Your evacuation center is your nearest elementary school. (In the case of the Kita Elementary School area, it is Maple Hall. For the Kayano Kita School area, it is Dai Ni Junior High School.)

On the day of the drill check with your family that you are prepared!

So that you know what to do in a real disaster, please be sure to participate in the citywide earthquake drill!

In Minoh City, every year on the anniversary of the Great Hanshin-Awaji Earthquake, 17 January, the entire city runs an earthquake drill. Whether it's on a weekday and the whole household is out doing different things, or on a holiday when everyone is home together, by practicing on different days of the week you can be prepared for any situation. This year's drill is on a Sunday. Please participate with your whole family in the 'Yellow Cloth Strategy', and listen to Tackey 816 etc.!

In order to prevent the spread of Covid-19

All events and drills that have been run at evacuation centers in previous years are cancelled. Please do drills at home with your family (check the page on the left).

In the event of a disaster the City sends alerts via email, social media and other apps! Messages will be sent on January 17 so please register before then and participate in the drill.

Citywide earthquake drill 17 Jan Starts at 10am

SUNDAY

An announcement from the public address system speakers signals the start of the drill *

This is a drill. There has just been an intensity level (shindo) upper 6 earthquake.

*The public address speaker system is one method used to communicate information in the event of a disaster. You cannot, or may have trouble hearing it inside buildings or if you're outside in strong winds or rain. Please start the drill from 10am.

Participate with all family members!

Check the page on the left

Do drills at home with your family!

For those in neighborhood associations

(Neighborhood associations include apartment management associations.)

Do you have a safety confirmation task sheet?

Do a safety check drill

Put out the yellow cloths and using the safety confirmation task sheet make sure that everyone is safe, collate the results, then send a representative to an evacuation center to report. *The neighborhood associations for each school district send the safety confirmation sheet reports to the District Emergency Management Committee.

In order to prevent the spread of Covid-19

Please just record whether or not yellow cloths are put out. Do not call out to people or ring their doorbells.
