A huge earthquake could strike tomorrow!

Protect yourself from falling furniture

When a Nankai Megathrust Earthquake strikes, it is forecast that Minoh City will shake with an intensity level (shindo) of up to a lower 6. During lower 6 shaking, standing becomes difficult, tableware and appliances fall off shelves, and tall furniture falls over.

When at home, please rearrange the furniture in bedrooms because a lot of time is spent there, and the kitchen which is full of tableware and appliances. For furniture that is difficult to move, take necessary measures to make sure that it won't fall over, like attaching it to the wall with metal fittings.

When it is difficult to secure furniture by yourself...

Don't put heavy

objects near

Ask for "securing furniture" (charges apply)!

Right Secure your furniture!

Every piece of furniture can be dangerous!

There is a risk of cupboard doors opening and tableware falling out, and microwave ovens sliding off benches. Make sure to prepare for this by securing your furniture in place with metal fittings, etc.

People whose house was built before May 1981... there is a great danger of your house collapsing!

Please get an earthquake resistance check right away!

Many wooden houses built before May 1981 do not have enough earthquake resistance, so they might collapse in a large earthquake. If you live in a house that was built before 1981, please get it checked for free right away!

There are also subsidies for improving the design and repairs!

For more information, please contact the Inspection and Guidance Division (TEL: 072-724-6866)
