

Survival Passport

Protect yourself and your family from natural disasters

Chapter 177

Large-scale disaster preparation and crime prevention!

Please join your neighborhood association!

Inquiries: Citizen Safety Policy Division TEL 072-724-6750 FAX 072-724-6376

It is impossible for public agencies to save everyone if an earthquake or other disaster strikes.

In the Great Hanshin-Awaji Earthquake, only around 20% of the people rescued were saved by emergency services such as the fire department or the police. The other 80% were saved by neighborhood associations and by community connections.

We can save more lives by checking the safety of the people around us.

In addition, neighborhood associations also work to keep everyone safe through installing crime prevention cameras.

The city can cover camera installation costs. If installed by your neighborhood association, we can expect crimes (such as motorbike/bicycle theft, empty house break-ins, etc.) to go down.

*Neighborhood associations include apartment management associations.

Disaster Preparation

In Minoh City

neighborhood associations run large-scale disaster safety checks

Quickly check everyone is safe with the Safety Checklists (Image)

Neighborhood associations use safety checklists to decide in advance which groups run safety checks, who reports and receives results, where the meeting places are, etc.

Make sure to regularly check which group you are in and what your role is.

NOW is the time to update your safety checklists!

Now is when general meetings are on, so it is also the time to update your safety checklists!

Please make sure to update them and check everyone's roles.

You can get safety checklists from the Minoh City Office Citizen Safety Policy Division.

They are also on the City Website.

In Minoh City

neighborhood associations are the first to get essential utilities/supplies until services start again

The Elementary School District Emergency Management Committees give emergency supplies needed in a disaster (such as water, food, etc.) primary to the neighborhood associations to distribute.

Crime Prevention

In Minoh City

neighborhood associations have installed around 900 crime prevention cameras

The city can cover camera installation costs.

To install in areas with low camera coverage: 80% subsidy

To install in areas with camera coverage: 40% subsidy

Areas with low camera coverage are areas with no crime prevention cameras installed (specifically areas without cameras within a 150 m radius).

Important

Crime prevention cameras are very effective at lowering crime rates.

For installation, please contact the Minoh City Office Citizen Safety Policy Division (☎ 072-724-6750).

In Minoh City you can use camera covers (that black out private doors, entrances, windows, etc. so they cannot be seen on camera) to protect your privacy.

Plus! A new "Replacement Support Program" will be launched in April.

The program provides 80% of the replacement costs of crime prevention cameras installed by neighborhood associations with city funding, regardless of installation density.

(Maximum available support amount)

- Wired devices: 300,000 yen
- Wireless devices: 405,000 yen

After installing crime prevention cameras... Street crime goes down!

Empty house break-ins

2014. 40 cases before installation

2025. 4 cases after installation

Down a lot!

Bicycle/Motorbike theft

2014. 407 cases before intallation

2025. 139 cases after installation

Down approx. 70%!

*Both results cover all of Minoh City.

To protect yourself and your family from disaster and crime, the first step is to join a neighborhood association!

Call us right now! Citizen Services Policy Division Direct line

072-724-6179

Please also call us for neighborhood associations (including apartment management associations) wanting to join district emergency management committee activities.

For information about neighborhood associations, please see the "Neighborhood Associations General Information" page on the City Website (QR Code)

*Financial support (for crime prevention cameras, etc.) is conditional on the council's vote.
